Saprema Namaskar,

Respected .....,

As a founder member of Bharatheeya Kisan Sangh and President of **Virat Foundation** - Details are in my resume enclosed. We are including our team of virat foundation members sending some documents about initiation of programme concluded on various models by trails on R&D basis since 25years - A part of "Integral-Humanism" for your perusal and recommend to the Hon'ble Prime Minister of India for formulation of political policy about "Graama Swaraj" & "Polity Pyramid" of Bharath, dreams of great souls- Father of the Nation Mahatma Gandhiji and Rushi Deenadayalji as a part of solutions for all main maladies accumulated for decades / centuries including safety and security for food providing sector of the Nation .

Why only the food providing sector safety? - As per history of late 20<sup>th</sup> century and also we are all eye witnessed the country Russia divided into so many countries and china also in the same lines in near future according to the available information about china, only because of failures of food providing sector. "Graama - Swaraj" is a catchy slogan for election politicians and political parties since 75 years. "Integral Humanism" also without realization till date. Because of non implementation of the great dreams of great souls - Rural sector and rural community degenerated and farmer's suicides also eye witnessed and more dangerous situation is dejection Tendencies on farming activities by the farming community. This is the time to direct the right action for suitable policy through the parliament by the Govt. of India. We are requesting you as a responsible citizens of India on behalf of social platform virat foundation - to recommend the concerned authorities for a noble cause mentioned above and in enclosed documents for your perusal and help as a moral support in a possible manner.

Saadar Namaskar!

Yours,
